

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

older persons Bird Day might well be the occasion of organizing Audubon Societies. Among other things the game laws of the state might be inquired into, with the purpose of making them more generally known to the public at large, and of securing such revision of them as might seem advisable where they are too lax. Let us all make Bird Day mean something to us this year.

Do we realize that the game laws of many of our states are dictated by sportsmen in their interest, and too often without any regard for the proper protection of the animals? This ought not so to be. As naturalists we should combine our forces and see to it that laws are enacted which shall afford adequate protection to the animals. Let this matter rest upon the conscience of each one until the desired object is accomplished. Delay means the useless death of many animals.

INFORMATION WANTED.

As to the arrival of Killdeer, Meadowlark, Bronzed Grackle, Robin and Bluebird for 1898. In order to make this record of practical value, every member of the Chapter and every reader of this notice should report. Please give the exact date on which each species was first seen, and when next seen, and when it became common, if possible. The date of first appearance is the most important for this comparison. Please send the records without delay to Lynds Jones, Oberlin, Ohio. A postal card will hold them. If any of these species wintered with you, please so state. In such a case the first *migrants* would constitute the first records.

ELECTION OF NEW MEMBERS.

For Active Membership.—Russell Gray, Philadelphia, Pa.

Admitted to Associate Membership.—Miss Ednah Knox, Sheffield, Ill.

PUBLICATIONS RECEIVED.

Contributions to Philippine Ornithology, by Dean C. Worcester, A. B., and Frank S. Bourns, M. D. From the Proceedings of the U. S. National Museum, Vol. XX, pages 549-625, (with plates LV-LXI). These

Contributions swell the list of Philippine birds to 526 species positively known to occur on these interesting islands, exclusive of 67 about whose occurrence there may be some doubt. The paper is in two parts, part I dealing with the list of species and their distribution in the group, part II discussing the many interesting problems presented by so varied a group of islands in the midst of the ocean. The paper is a contribution not only to Philippine Ornithology, but to the general subject of Ornithology as well.

Birds, Vol. III, Nos. 2 and 3. February and March, 1898.

Book Reviews, Vol. V, Nos. 8 and 9. February and March, 1898.

Bulletins 88, 89, 90. Alabama Agricultural Experiment Station.

Bulletin of the Michigan Ornithological Club. Vol. II, No. 1. January, 1898.

Bulletin 87. Ohio Agricultural Experiment Station.

Contributions to Western Botany, No. VIII. February 21, 1898.

Forest and Stream, Vol. L, No. 1. January, 1898.

The Iowa Ornithologist. Vol. IV, No. 1. January, 1898.

The Journal of Applied Microscopy. Vol. I, No. 2. February, 1898.

Museum. Vol. IV, No. 4. February, 1898.

The Osprey. Vol. II, Nos. 5, 6-7. January, February-March, 1898.

Stories from Nature. Vol. I, Nos. 8, 9. January and February, 1898.

WANTED! The following numbers of *The Osprey*: October, and December, 1896, February, 1897. Will exchange other publications, or pay cash. Address, LYND JONES, Oberlin, Ohio.
